# UN System-wide Dashboard on Gender Parity

The UN System-wide Dashboard on Gender Parity has been jointly developed by UNDP and UN Women in 2021. It is the first UN dashboard to consolidate, monitor and track gender parity progress in the whole UN System. This public Dashboard includes gender parity data of nearly 40 entities by grade, staff category, duty station and age group. It uses the most recent data available, and will be updated quarterly.

We need equal representation of women at all tables - and that includes within the United Nations. Let us together Make Parity a Reality, please visit the Dashboard here:
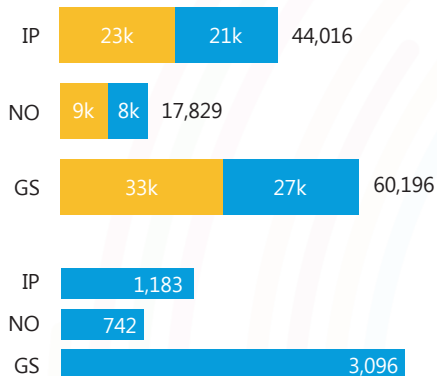

tinyurl.com/gender-parity-UN

Overall representation of women and men by Ratio (%)

54.2%

45.8%

Representation of women and men by Staff Category (#)

Category	Men	Women	Total
IP	23k	21k	44,016
NO	9k	8k	17,829
GS	33k	27k	60,196

Gender Parity Index (# of women or men needed to reach parity) by Staff Category

Category	Value
IP	1,183
NO	742
GS	3,096
