	5. <i>Requests</i> regular updates to the Executive Board on efficiency gains and their redeployments, through existing reporting mechanisms;		DMA; Operations	UN-Women participated in the data collection exercise for the SG’s annual report on efficiency gains and effectiveness improvements covering 2020-2021. UN-Women reported a total of \$1,800,000 for 2020 and \$2,600,000 for 2021. 2022 data is currently being finalized. It is important to note that, in most cases, the efficiency gains cannot be interpreted as actual cash savings for redeployment. Many efficiency gains refer to cost-avoidance and in cases where time savings have been converted into USD equivalent amounts to enable aggregation, the time saved will potentially result in redeployment of capacity, but not actual cash savings. The majority of the efficiency gains achieved currently comes from UN-Women’s participation in Business Operations Strategies (BOS) at county level, which we expect to continue to increase as this work progresses.

				<p>UN-Women is contributing to the current work of the Business Operations Group (BIG) leading the system-wide efforts on the ongoing work to identify efficiency gains in the area of common business operations. UN-Women is actively engaged in BIG and as such the Entity contributed to the finalization of the revised BOS guidelines and is implementing the Business Operations Strategy (BOS) at country level as a member of the UNCT. Takes note of the UN-Women integrated budget estimates for 2020–2021 which covers all cost categories and funding sources (both regular and other resources) within a single, consolidated proposal, to support the implementation of the Strategic Plan 2018–2021;				
	2.	Notes with appreciation the inclusion of separate budget lines for the independent internal audit and the evaluation office;

	4.	<i>Requests</i> UN-Women to set realistic targets for resource mobilization;		Strategic Partnership Division	UN-Women has set realistic targets for resource mobilization. The Regular Resources (Core) revenue forecast for 2020-2021 reflected zero growth while the Other Resources (Non-Core) revenue forecast showed a slight increase from \$480 million in 2018-2019 to \$570 million in 2020-2021 i.e. \$285 million per annum which is aligned with the recent trend.

	2.	<p><i>Requests</i> UN-Women to continue its efforts to improve its efficiency, effectiveness, transparency and accountability and in this regard to continue to provide information on its programme activities, within the proceedings of the Executive Board;</p>		Strategic Partnership Division	<p>UN-Women is continuing to improve efficiency, effectiveness, transparency and accountability, in line with its Funding Compact commitments. This includes submitting financial data to the Chief Executives Board, reporting to and improving International Aid Transparency Initiative compliance as well as improving understanding of the data throughout the Entity, so it can be put to better use, and demonstrating results-based budgeting (RBB). Examples of UN-Women’s corporate application of RBB include the 2018 interim Strategic Plan results portal and the more interactive and comprehensive Results Transparency Gateway, which is under development for release in early 2020. In addition, recently instituted annual financial reporting – such as the <i>Compendium of Financial Partner Contributions 2018</i> and the <i>Core Resources Report 2017</i> – enables UN-Women to improve transparency and accountability to align resources with Strategic Plan outcome and output results. Benchmarking other UN funds and programmes, UN-Women intends to institute thematic window briefings on an annual basis, a year after the windows have been established, accompanied by annual reports that document results per outcome area.</p>	
	3.	<p>Encourages all Member States in a position to do so, to increase their voluntary contributions to UN-Women, especially to its regular resources, and to prioritize flexible and timely resources aligned with the Strategic Plan, 2018–2021, and, if possible, through multi-year commitments;</p>		Strategic Partnership Division	<p>UN-Women has developed differentiated approaches to various types of resource partners, including improved communication on and recognition of regular resource contributions. For example, UN-Women produces annual Regular Resources Reports with the aim of increasing transparency on the allocation and expenditure of regular resources, advocating for an increase of unrestricted funding and providing recognition of top and upgraded Regular Resource partners as an incentive for increased funding. Furthermore in 2020, the Entity provided periodic updates to its partners on its use of regular resources in response to the COVID-19 pandemic, highlighting regional and country office interventions and results. In 2021, UN-Women launched a donor visibility campaign featuring one top contributor a week on social media. This was intended to recognize the top donors’ contributions and generate awareness of the tangible change and concrete results around the world, that UN-Women and its partners are able to achieve thanks to the core and non-core contributions, highlighting the donor as both a champion of gender equality and an enabler of UN-Women.</p>

	<p>4.</p>	<p>Recalls decision 2016/4, paragraph 10, and encourages UN-Women to continue to strengthen its efforts to diversify its funding base, including with the private sector and other stakeholders, to contribute to the implementation of the Strategic Plan, 2018–2021;</p>		<p>Strategic Partnership Division</p>	<p>UN-Women continued to strengthen its efforts to diversify its funding base, including from Individual Giving which – as largely demonstrated by UNICEF and UNHCR – remains a proven successful means of generating regular resources in the UN system. As the critical driver of success in individual giving is the continued investment in National Committees’ campaigns to acquire new individual donors, UN-Women kept piloting small-scale investments in Iceland, Sweden, The Netherlands and France for a total \$329,000 in 2019, which yielded important results. The investment in Iceland alone, for example, resulted in 1,130 new monthly donors (\$15,540/month), 631 new one-offs (\$28,856) and 32 upgrades (\$245/month). In 2020, funds were not available to allow National Committees to implement fundraising campaigns and acquire new individual givers to UN-Women’s core resources. \$25,000 were made available to the Dutch National Committee at the end of 2020, with an estimated return on investment (ROI) in the first year of 1.9 and a 3-year ROI of 2.65. UN-Women encourages Member States to support UN-Women in further investing in individual giving. In 2020-2021, through strong collaboration with UN-Women field offices, in partnership with the private sector and by utilizing its lead initiatives (HeforShe, Unstereotype Alliance, WEA, WEPs and harnessing the power of its twelve global National Committees) – the Multi-stakeholder Partnerships and Advisory Services team (MPAS) raised more than \$18 million for UN-Women. For instance, through the work of the HeForShe initiative, MPAS secured \$3.925 million in resources to roll out solutions, advocacy, and masculinities initiatives. Specifically in 2021, UN-Women National Committees raised more than \$3 million from individuals and the private sector, of which \$550,000 was designated to the emergency Afghanistan appeal. A further USD8.8 million were raised from other private sector partnership activities in 2021.</p> <p>With a focus on maintaining and growing strategic and outward facing partnerships, in 2021 UN-Women engaged with 109 corporate partners, of which 43 were brought on as net new partners during the year. 36 of these new partners reflect new corporate members of the Unstereotype Alliance, managed by MPAS – over 2021, the Unstereotype Alliance’s membership grew by 45% to 217 members and allies worldwide.</p> <p>During 2021 MPAS also collectively focused on providing support for UN-Women engagement in and delivery of the Generation Equality Forum while continuing to provide a range of services to all its other stakeholders. For example, MPAS successfully provided due diligence and partner intelligence support to 291 requests from field and HQ teams, and supported the negotiation of regional and country-based partnerships with the private sector, including for financial contributions – for instance, between the Japan Liaison Office and Fast Retailing or between the GCC Liaison Office and Etihad Airways. MPAS also piloted a</p>

The number of UNDAFs or UNSDCFs featuring gender-specific results at the outcome level stood at 10 out of 27 (70%) of the Cooperation Frameworks developed in 2021. Gender equality remained the most common joint programming area.</p> <p>UN-Women is actively engaged in several interagency working groups including the UNSDG high-level results groups on Strategic Financing Results Group (SFRG), currently chaired at Under-Secretary-General (USG) level by the United Nations Population Fund (UNFPA). This group supports the UNSDG in the transition from funding to financing and to facilitate quality integrated technical support to countries and UN-Women has continuously advocated for gender considerations.</p> <p>UN-Women is making progress in mainstreaming gender equality in Cooperation Frameworks including through strengthening the Entities’ capacities to support RCs/UNCTs in mainstreaming gender equality in Cooperation Frameworks. For example, we have established a dedicated surge capacity and UNSDCF Support facility platform to guide offices with Cooperation Framework formulation and made strong investment in robust gender analysis in the Common Country Analysis (CCA) including the development of gender profiles. Furthermore, a training manual on gender responsive engagement in Cooperation Frameworks has been developed and is being applied by a few UNCTs at the start of the Cooperation Framework process.</p> <p>UN-Women is promoting Financing for Development (FFD) through its seat on the FFD Committee, participating in several workstreams to ensure gender equality in the Build Back Better agenda and collaborating with the MPTF. Additionally, UN-Women has convened a series of high-level virtual Ministerial roundtables with the International Financial Institutions, to highlight best practices, share experiences, and build concrete partnerships to amplify the importance of addressing gender equality and women’s empowerment in the multilateral system response, particularly in COVID-19 economic recovery efforts. The Entity has continued to advocate for support and investment in gender equality and women’s empowerment in order not to halt and/or reverse gains made.</p> <p>As part of the Advisory Committee on the UN COVID-19 Response and Recovery Multi-Partner Trust Fund (MPTF), UN-Women is leveraging its UN coordination role to advocate for the integration of gender considerations – with the support the</p>

Concretely, in the COVID-19 MPTF, UN-Women successfully advocated for the establishment of a 30 per cent financial target for projects whose principal objective is gender equality and the empowerment of women [categorized as Gender Equality Marker (GEM) 3]. Furthermore, as part of the implementation plan of the recommendations emanating from the High-Level Task Force on Financing for Gender Equality, UN-Women is working to ensure that a focus on gender equality and women’s empowerment is incorporated in a meaningful and measurable way in all UN pooled funding mechanisms, including the Joint SDG Fund. UN-Women will continue to advocate for the inclusion of gender markers and associated financial targets in the design of new MPTFs.</p> <p>AUGUST 2022 Update (UNSCD) In 2021, UN-Women and UNEP co-chaired the UNSDG SDG Financing Task Team. Its workplan included a focus on Financing for Gender Equality, to ensure the promotion of gender equality and the empowerment of women in SDG funding mechanisms. UN-Women is actively contributing to the inter-agency working group that is updating the guidance for joint programmes.</p> <p>JANUARY 2022: In the context of the High-Level Task Force on Financing for Gender Equality, UN-Women is working with the Multi-Partner Trust Fund Office in UNDP and the UNSDG Fiduciary Management and Oversight Group to establish gender mainstreaming standards for Pooled Funds.</p> <p>May 2022: The Gender Equality Marker has been proposed as a UN Financial Data Standard for reporting to IATI, OECD-DAC and the CED, at the entity and CT levels and in pooled funds. UN-Women continues working with the MPTF Office and OCHA for the integration of a unified gender equality marker and financial targets in development and humanitarian pooled funds respectively.</p> <p>UN-Women continues to promote and contribute to gender mainstreaming in Financing for Development (FFD). Through principal-level participation in the Inter-Agency Task Force on FFD, the Entity positioned financing for gender equality as a critical enabler of sustainable development. Additionally, UN-Women co-chaired (with UN-DESA) the gender group of the Inter-Agency Task Force on FFD, bringing together 20+ UN organizations and specialized agencies to mainstream gender analysis in the Financing for Sustainable Development Report, the substantive basis for FFD intergovernmental negotiations. 				<p>has provided extensive technical support on joint UN publications, including the Secretary-General’s Policy Brief on Investing in Jobs and Social Protection, to ensure strong messages and policy recommendations on financing for gender equality. Also, UN-Women collaborates closely with UNDP to strengthen gender mainstreaming in integrated national financing frameworks, which have been initiated in more than 80 countries to date. In the context of COVID-19, the Entity has continued to advocate for and provide substantive analysis and guidance for targeting public resources and investments to gender responsive recovery measures.</p> <p>August 2022: UN-Women has also engaged with other pooled funding mechanisms managed by MPTFO such as the joint fund for the SDGs and the human rights mainstreaming trust fund to share the experience in the COVID-19 response trust fund and explore ways of replicating the work done on including a gender equality marker and a gender equality financial target.</p> <p>Through UN-Women’s close partnership with the Peacebuilding Support Office (PBSO), including seconding the Gender Adviser, the Peacebuilding Fund (PBF) has taken significant steps to improve its gender-responsiveness. These actions, which include a dedicated call for proposals, stronger attention to gender mainstreaming in the entire portfolio, planning tools, templates and monitoring processes that mainstream gender and strong advocacy with UNCTs, have culminated in the PBF allocating 47 per cent of its funding to project that either have an exclusive or significant contribution to gender equality</p> <p>In 2019-2020 the PBF continuously exceeded allocations for gender-responsive projects, allocating 40%, and in 2021 the allocation increased to 47%. Also, in 2021 the Peacebuilding Fund increased its allocation for projects that had gender equality as a principal objective, from 13.5% in 2020 to 21.7% in 2021.</p> <p>It is important to note that UN-Women is not only a PBF recipient organization, but also a strategic partner, in both the gender and youth work of PBSO: financing for gender-responsive peacebuilding, standards and capacity development, secondment of gender expertise, track and report progress. In 2021, UN-Women mobilized \$18.7M from PBF.</p>

				<p>UNWomen and the MPTF Office in UNDP ensured the inclusion of two specific Pooled Funding-GEM related indicators in the QCPR monitoring framework, thereby making annual reporting on them mandatory in the report of the Secretary-General on the QCPR presented to ECOSOC. UN-Women supported the development and conduct of a survey on the Funding Compact commitment #14 (on common management features in inter-agency pooled funds) by the UNSDG FMOG (Fiduciary Management and Oversight Group). The survey served the purpose of gathering information on the two QCPR indicators on the implementation of the gender equality marker and the 15% financial target for programmes with gender equality as a principal objective. This survey is expected to be conducted annually henceforth. Survey results showed that over 65% of the Multi-Partner Trust Funds and standalone Joint Programmes (JPs) are applying gender equality markers. Yet, only 37% of the Funds and 48% of the JPs include financial targets related to gender equality. In terms of financial investments (with or without established targets) 51% of Funds and 71% of JPs, according to the survey, are allocating 15% or more of their resources to programmes with gender equality as their principal objective. More positively, over 80 per cent of the Funds and Joint Programmes reported having a Theory of Change addressing gender equality.</p> <p>In 2021, building on the 2020 experience with the COVID-19 Fund, the Gender Equality Marker (GEM) was embedded in the Special Trust Fund for Afghanistan (STFA) in combination with specific financial targets addressing women’s rights and gender equality. These targets include 30% of the cash transfers for people working in markets (Cash for Market) to be allocated to women, and 15% of the overall STFA to address women’s needs and gender equality issues, particularly through unconditional cash transfers to support widows and survival needs.</p> <p>UN-Women has continued participating in the review of proposals submitted for funding to the Joint SDG Fund and providing a help-desk service on the gender equality marker, including for the Call for Proposals on Small Island Developing States (SIDS). The Call launched in 2021 for US\$ 30 million and finalized in 2022 yielded 26 proposals of which 21 were classified as GEM 2 (81%) and 5 as GEM 3 (19%). UN-Women has also supported the Fund’s recent Development Emergency Modality activated with an envelope of US\$ 22.9 million, under the guidance of the GCRG (Global Crisis Response Group) to support 87 UN country teams</p>

				<p>covering over 100 countries and territories, in response to the global crisis of food, energy, and finance.</p> <p>Update May 2023:</p> <p>The Gender Equality Marker (UN GEM) has been endorsed by the CEB HLCM/FBN (Finance and Budget Network) as a new UN Data Standard for systemwide reporting on financial data. This standard is applicable to inter-agency pooled funds as well. As a result, the UNSDG FMOG (Fiduciary Management and Oversight Group) is updating the 2015 UNDG Guidance on Establishing, Managing and Closing Multi-Donor Trust Funds to include, inter-alia, an annex on the integration of the UN GEM in pooled funds, under the leadership of the UNDP MPTF Office and UN-Women.</p> <p>UN-Women continued to support the mainstreaming of gender perspectives into UN system’s work. Based on UNDCO Information Management System data, 18 out of 36 (50 per cent) country teams that developed a Cooperation Framework in 2022 included a dedicated gender equality outcome. Of the 36, 21 (58 per cent) mainstreamed gender in all their outcomes. In 2022, 112 out of 131 country teams (85 per cent) reported having one or more Joint Programmes that include an SDG 5 focus with the total proportion of Joint Programmes with an SDG 5 focus standing at 378 out of 887 reported Joint Programmes (43 per cent).</p> <p>The secondment provided by UN-Women has also contributed to the success story of the Secretary-General’s Peace Building Fund (PBF) sustainably exceeding its 30% gender funding target towards projects supporting gender equality and women’s empowerment (47% in 2022, up from 40% in 2020). towards projects supporting gender equality and women’s empowerment (47% in 2022, up from 40% in 2020).</p>

UN-Women will propose the establishment of thematic funds in its next Strategic Plan. As reported in the Structured Dialogue on Financing, the 2020 corporate evaluation of the FPIs is helping to inform the establishment of thematic funds and future programming modalities. It found that the flagship approach was successful in embedding a corporate shift towards consolidated and scalable programmatic approaches, but faced challenges, including in resource mobilization.</p>

	<p>7.</p>	<p><i>Welcomes</i> steps taken by UN-Women, in collaboration with United Nations Development System (UNDS) entities and Member States, to follow up on commitments of the Funding Compact; and encourages UN-Women to continue dialogue with all UNDS entities and Member States to jointly make progress towards compliance with their mutual and interdependent Funding Compact commitments;</p>		<p>Strategic Partnership Division</p>	<p>UN-Women reported to the Executive Board on its progress on Funding Compact commitments, presenting its report as an annex to the 2021 and 2020 Structured Dialogue on Financing as was the case in 2019. In line with the decisions adopted by the Executive Board at its 2019 and 2020 Second Regular Session (UNW/2019/8 and UNW/2020/11), UN-Women is working with sister agencies (UNDP, UNICEF, UNFPA) on harmonizing Funding Compact reporting.</p> <p>Additionally, UN-Women has established an engagement plan for the Structured Dialogue on Financing process. This includes formal and informal meetings and briefings within and outside the Executive Board.</p> <p>In 2020, UN-Women convened four key sessions with its Executive Board which covered progress on its funding and against the Funding Compact: i) Joint briefing on the options to improve structured dialogue on financing, 23 January 2020; ii) the First regular session 2020 on 14 February 2020, where options for improving the quality of the Structured Dialogue on Financing were presented to the Board; iii) Pre-Session and informal briefing on structured dialogue on financing, on 25 August 2020 and iv) and a Structured Dialogue on Financing in September 2020, where an overview of UN-Women’s funding situation in comparison to the approved integrated budget was provided, underpinning the need for the right balance of regular resources and flexible and predictable other resources to maintain a balanced focus in the implementation of the Organization’s full mandate. UN-Women also shared its intention to establish thematic funding windows, in alignment with the funding compact.</p> <p>Furthermore, in February 2020, the Entity convened a Partner Roundtable with key donor governments where among other issues, UN-Women’s role within the Reformed UN System was discussed. Moreover in 2020, UN-Women held high-level strategic dialogues with Finland, Japan, Luxembourg, Norway, Sweden and the United Kingdom where the Funding Compact commitments was one of the primary issues discussed.</p> <p>In 2021, the Second Partner Roundtable hosted by Ireland was held virtually on 28-29 January. There were 22 financing partners, the meeting focused on taking stock of the impact of COVID-19 on advancing gender equality and women’s empowerment; strategies to strengthen UN-Women’s global footprint in its second decade, including in the context of the UN development system reform; UN-Women’s added value in the context of advancing gender equality and women’s empowerment and in preparation for the 2021 Generation Equality Forum. UN-Women also held high-level strategic dialogues with Australia, Denmark, Finland, Germany, Luxembourg, Norway and Sweden.</p>

					UN-Women plans to continue the practice of holding high-level strategic dialogues with partners and Partner Roundtables annually including the Third Donor Roundtable that is scheduled for 6-8 April 2022 to be co-hosted by Germany.	
8.	<i>Requests</i> UN-Women, as part of its reports on Structured Dialogue on Financing, to present harmonized annual reporting on implementation of its entity-specific commitments and contribution to the collective commitments of the Funding Compact, including adding annual milestones, examples of country-level impact, and a forward-looking narrative outlining intended progress for those milestones not yet realized, ahead of the second regular session 2020 of the UN-Women Executive Board;		Strategic Partnership Division		UN-Women, UNDP, UNICEF, and UNFPA coordinated on the presentation of harmonized annual Funding Compact reporting to each entity’s Executive Board, via a results matrix tracker as an Annex to the official report of the Structured Dialogue on Financing (SDF) in 2019, 2020 and 2021 and will be similar practice in subsequent years In 2020, the Funding Compact Annex included 2019 progress and 2020 milestones for all applicable indicators. In addition, a joint interagency Executive Boards informal session was held on the subject on 28 August 2019. Through the work of the inter-agency SDF working group (UN-Women, UNDP, UNICEF and UNFPA), a harmonized template to report on Funding Compact commitments has been produced that was included in the official report of the SDF in 2020 and circulated to the UN-Women Executive Board in line with official procedures, ahead of the second regular session.

Decision 2017/2 – Annual Report of the Under-Secretary – General/Executive Director on the Implementation of the Strategic Plan 2014-2017	6.	Recalls decision 2016/1 in which the Executive Board requested UN-Women to improve its programmatic focus and strengthen its programme delivery and normative-operational linkages through multi-stakeholder partnerships, in particular within the Flagship Programming Initiatives and through synergies with the Fund for Gender Equality and the United Nations Trust Fund in Support of Actions to Eliminate Violence against Women;		PPID	<p>Completed. Flagship programme initiatives focused UN-Women’s programmatic work at country, regional and global level. Simultaneously, there has been an increase in joint programming, and multi stakeholder partnerships. Joint meeting of the normative and operational governing bodies bureau; CSW and EB was held in 2018 for the first time.</p> <p>UN-Women is currently weighing options for the future of its Fund for Gender Equality and will soon make a decision on whether it will continue to operate in 2020 and beyond.</p> <p>The UN Trust Fund to End Violence against Women commissioned a Mid Term Review of the Fund’s 2015-2020 Strategic Plan in 2018 which was concluded in June 2019 and presented at an Executive Board Informal on 21 June 2019. The MTR was conducted by an independent, external evaluator who concluded that “The UN Trust Fund is strategically aligned with the work of UN-Women. UN-Women provides a link with the field through its focal points, advice and</p>	

				<p>resources. It also supports the UN Trust Fund’s visibility”. The MTR identified some challenges but also opportunities for improving synergies between sections working on ERAW in UN-Women, especially in light of The Spotlight Initiative, for which the UN Trust Fund has just launched a call focused on Latin America and Sub-Saharan Africa. Knowledge sharing (e.g. Virtual Knowledge Centre – endvawnow.org; webinars and newsletters to UN-Women ERAW focal points, UNTF grantees and government focal points) and regional joint capacity-building workshops (e.g. in Panama with 16 country offices in LAC) have also been strengthened.</p> <p>Update 1 June 2021:</p> <p>Synergies with the UN Trust Fund to End Violence against Women continue to be strengthened, including through greater programmatic collaboration and knowledge exchange at the global level on ERAW policy work as well as through increased coordination with UN Trust Fund supported organizations at the field level by UN-Women Country Offices. The UN Trust Fund also conducted extensive multi-stakeholders’ consultations during 2020 that informed its Strategic Plan 2021-2025 direction, that included close collaboration with and input from UN-Women’s programme staff at country, regional and global levels.</p> <p>In 2020 a corporate evaluation of the flagship programme initiative was carried out and presented at the ExBo first regular session in 2021 including the management response. The documents are on the ExBo website. The findings of the evaluation are used to inform the development of the next strategic plan.</p> <p>Update January 2022:</p> <p>UN-Women’s Strategic Plan 2022-2025 recognizes the interagency grant-making mechanism, the UN Trust Fund to End Violence against Women, as one of the key interventions managed by UN-Women to deliver its integrated approach to ending violence against women. The programmatic focus of the UN Trust Fund’s Strategic Plan 2021-2025 is informed by UN-Women’s programmatic lead on ERAW agenda within the UN system, and is consolidated under three programmatic areas that reflect the UN interagency programmes and initiatives: 1. prevention of violence against women, 2. support to specialist and essential service to survivors and 3. implementation of legislative and policy frameworks. The UN Trust Fund’s 25 years of experience and expertise in grant-making is recognized as agency’s asset in broadening multi-stakeholder partnerships, especially with the civil society</p>

					<p>organizations and women’s rights organizations that have proven to be on the forefront of response to survivors of violence during COVID-19 and beyond. Building on the Flagship Programme Initiative (FPI) evaluation, UN-Women is developing a second-generation initiative to further enhance programmatic focus for greater impact and results at scale. The FPI evaluation confirmed that while there were some weaknesses in relation to quality assurance mechanisms, monitoring and reporting and resource mobilization, Flagship Programme Initiatives were successful as programming structures to guide UN-Women field programmes and were highly successful in embedding a corporate mind-shift towards programmatic approaches and also demonstrated the scalable impact of focused and standard approaches unified by clear theories of change, facilitated by global and regional policy support. The second-generation of programme frameworks that will drive UN-Women’s programmatic focus further that are currently being developed will also address the abovementioned gaps of the FPIs that were identified in the evaluation.</p>
