c. UN Women Terms of Reference

1. Introduction

a. Background/Context for required services/results

UN Women was established by GA resolution 64/289 of 2 July 2010 on system-wide coherence, with a mandate to assist Member States and the UN system to progress more effectively and efficiently towards the goal of achieving gender equality and the empowerment of women. UN Women is mandated by the United Nations General Assembly to i) support inter-governmental bodies, such as the Commission on the Status of Women, in their formulation of policies, global standards and norms, ii) to help Member States to implement these standards, standing ready to provide suitable technical and financial support to those countries that request it and to forge effective partnerships with civil society, and iii) to hold the UN system accountable for its own commitments on gender equality, including regular monitoring of system-wide progress and mobilizing and convening key stakeholders to ensure greater coherence and gender mainstreaming across the UN. Since 2001 UN Women (previously as its predecessor entity UNIFEM) has implemented catalytic initiatives on promoting women's economic, political and social rights. In 2012, a full Country Office was established.

UN Women provides normative support to inter-governmental processes in terms of strengthening monitoring and accountability mechanisms for global and regional normative frameworks for gender equality and women's empowerment, including the Sustainable Development Goals (SDGs), the Convention on the Elimination of all Forms of Discrimination Against Women (CEDAW); and other relevant UN Treaty Bodies agreements, such as the Beijing Platform for Action (BPfA), UN Security Council Resolution on Women, Peace and Security 1325.

The Kyrgyz Republic has ratified major international conventions on women's rights and gender equality and occupies a leading position in the sub-region in developing national legal framework on women's rights in compliance with international standards. The Kyrgyz Republic re-affirmed the implementation of international obligations on Agenda 2030, through nationalization of Sustainable Development Goals (SDGs). It established the Coordination Committee (CC) on SDGs with engagement of national experts on key dimensions of the Agenda 2030 in governance, economy, social development, gender equality and environmental sustainability, to identify national priorities, objectives and indicators. The CEDAW and its Optional Protocol ratified in 1997 and 2007 is a binding international treaty that guarantees the equality of men and women and prohibits gender-based discrimination. The Beijing Platform for Action (BPfA) was adopted in 1995, and the National Action Plan on UN SCR Women, Peace and Security 1325 is being implemented since 2013.

The UN Women Country Office in the Kyrgyz Republic will be implementing project under the Women, Peace and Security portfolio: "Empowering women and girls affected by migration for inclusive and peaceful community development" - a joint project with IOM (leading) and ILO. This joint project proposes a comprehensive approach to promote an enabling community and policy environment conducive to women and girls' empowerment and their active engagement in peacebuilding and inclusive community development in communities affected by migration and prone to conflict in the Kyrgyz Republic, and particularly in the Southern regions of Kyrgyzstan.

The project will contribute to the empowerment of women and girls most vulnerable to migration, by improving their participation in peacebuilding and inclusive community development, enhancing their access to socio-economic opportunities and building capacities-of women and girls. The target groups include: 1) girls and women vulnerable to forced migration (unemployed, divorced women and girls vulnerable to forced migration/potential future migrants); 2) returning migrant women and girls (who may be potentially forced to re-migrate). As the vulnerabilities created by migration of Kyrgyz women and girls are in most occasions a consequence of harmful gender norms shaped in society which eventually contribute to the decrease of women's agency in community development, the proposed project will be crucial and catalytic to undertake actions towards changing community attitude by promoting positive norms in support of women empowerment and recognition of women migrants' role in peaceful community development. The project will not only target migrant women and girls, but also men and boys as well as relevant community members in target locations.

The project was designed to mitigate and tolerate the risks of potential pushback from policymakers and community members who are resistant to accept changes and positive gender norms, through innovative tools and methods to engage with community members, particularly men and boys, such as the GALS (Gender Action Learning System) methodology.

As the unique initiative led by the UN in Kyrgyzstan that specifically aims at addressing the challenges of women and girls migrants in peacebuilding and community development, the proposed joint project will be catalytic as it will contribute to introducing gender considerations in peacebuilding processes that involve a migration dimension at policy and legislative levels in the country, in particular through the localization of the Women, Peace and Security (WPS) agenda, identifying positive practices and their replication showcasing the recognition of women migrants' contribution to community development as well as enhancing economic opportunities for women migrants using innovative techniques.

The project is fully supported by the Kyrgyz authorities as it aims to accelerate the implementation of the 2017-2020 Peacebuilding Priority Plan (PPP) while addressing the outcomes of the review of the National Action Plan (NAP 2016-2017) on UNSCR1325 implementation, that was conducted in 2018. As such, this project will address identified critical gaps in the peacebuilding process in the Kyrgyz Republic by tackling conflict risks related to the lack of inclusion and economic opportunities for a particularly vulnerable group of women migrants in Kyrgyzstan, otherwise qualified as economic violence against women.

The expected results of the announced CFP will contribute to the Country Office Annual Work Plan **Output 1.1.1** Line ministries and local governments have the requisite knowledge and tools to integrate gender equality and women's empowerment into sectorial policies and budgeting processes at national and local levels: **KGZ_D_1.1.1A** Number of senior management and decision-makers of state institutions reporting improved abilities on inclusive decision making and gender-responsive policies and practices and **KGZ_D_1.1.1B** Number of gender-responsive action plans developed through inclusive decision-making and consultations and endorsed by local self-governments with UN Women support. This Output 1.1.1 is under the CO SN **Outcome 1.1** Key national institutions are implementing international obligations and national commitments on gender equality and women's empowerment in policy and budgeting processes, and are accountable for results, including through the coordination mandate of the country office with the indicator **KGZ_D_1.1A** Number of public platforms organized where Government reports on progress made by the Government on GEWE commitments with UN Women's support.

b. General Overview of services required/results

The current call for proposal is announced to invite potential CSOs (several CSOs as a coalition can submit a joint proposal) to lead the component that work with national and local authorities to have them equipped to apply socially inclusive approaches in policymaking and implement gender-responsive peacebuilding at the local level in target communities jointly with community members and with engagement of women and girls affected by migration in peaceful community development and in peacebuilding.

The proponent/s should be guided by the **Theory of change** of the project that states:

IF communities affected by migration and risks of violence positively perceive the role of women and girls to participate in community development and peacebuilding;

IF women and girls living in communities affected by migration are empowered and equipped with knowledge and skills to protect their political, economic and civic rights, and provided with access to resources, decent work and sustainable livelihood opportunities and **IF** women and girls returning to their home communities are provided with opportunities for better inclusion and livelihoods;

IF national and local authorities are equipped to apply socially inclusive approaches in policymaking and implement gender-responsive peacebuilding at the local level in target communities;

THEN women and girls in communities that are affected by migration and risk of violence can meaningfully be included in the political, economic and social life of their societies, take part in inclusive community development and peacebuilding, which will help mitigate the challenges for women and girls at highest risk

BECAUSE community members will break down/change existing harmful gender norms and recognize girls and women's role in community development and peacebuilding;

BECAUSE national and local authorities will better understand challenges that migrant women and girls face and the role and contributions that migrant women and girls can have in the peacebuilding process;

BECAUSE national and local authorities will be more inclined and able to design and implement national policies and legislation that are more inclusive and gender-sensitive;

BECAUSE women and girls will be economically and socially empowered and have agency/be enabled to make informed decisions and participate in decision-making at community level.

The project will be implemented in **six** target municipalities of southern provinces of Kyrgyzstan (Batken, Jalal-Abad and Osh, and one out of six municipalities could be from Talas following recommendation by the state authorities, it is under discussion with national counterparts – TBC) since according to State Migration Service, Batken, Jalal-Abad and Osh provinces have the biggest migration outflows of women and girls migrants. Two municipalities in each province will be selected in collaboration with national partners based on following criteria: localities with biggest outflow of migration, prone to conflict, and decreased women's representation in local councils.

In total, the project will target 6,000 beneficiaries (60% women, 40% men) including men and boys as one of the gender norm holders to be engaged within awareness-raising activities, of which 1,500 girls and women will be directly involved within project interventions. Community population to be engaged during whole project cycle including needs assessment, identifying target groups of women and girls migrants, awareness raising activities and joint implementation of peacebuilding activities inclusive to women migrants' participation. Local stakeholders (local government and authorities, local NGOs) will be engaged from the very beginning of the project, but most importantly when developing Local Action Plans/ LAPs on Women, Peace and Security/WPS Agenda and joint implementation of peacebuilding activities along with women and girls migrants. National stakeholders to be engaged when developing draft of State Migration Policy to be gender sensitive towards women migrants and during capacity building workshops to understand the needs of women migrants.

Technical evaluators who are members of an Evaluation Committee appointed by UNWOMEN in close coordination with IOM will carry out the technical evaluation applying the evaluation criteria and point

ratings as listed below. In order to advance beyond Phase I of the detailed evaluation process to Phase II (financial evaluation) a proposal must have achieved a minimum cumulative technical score of 50 points.

1	<p>Proposal is compliant with the Call for Proposal (CfP) requirements</p> <p>The proposal is submitted in Russian and English, followed the structure of the CFP, all supporting documents are well-structured and presented</p>	15 points

Financial proposals will be evaluated following completion of the technical evaluation. The proponent with the lowest evaluated cost will be awarded 30 points. Other financial proposals will receive pro-rated points based on the relationship of the proponents’ prices to that of the lowest evaluated cost.

Formula for computing points:
Points = (A/B) Financial Points

Example: Proponent A’s price is the lowest at \$10.00. Proponent A receives 30 points. Proponent B’s price is \$20.00. Proponent B receives $(\$10.00/\$20.00) \times 30$ points = 15 points

Proponents are requested to complete this form (Annex B-2) and return it as part of their submission. Proponents must meet all mandatory requirements/pre-qualification criteria as set out in **Annex B-1**. Proponents will receive a pass/fail rating on this section. To be considered, proponents must meet all the mandatory criteria described in Annex B-1. Component 1: Organizational Background and Capacity to implement activities to achieve planned results (max 1.5 pages)

This section should provide an overview with relevant annexes that clearly demonstrate that the proposing organization has the capacity and commitment to implement successfully the proposed activities and produce results. Key elements to be covered in this section include:

1. Nature of the proposing organization – Is it a community-based organization, national or sub-national NGO, research or training institution, etc.?
2. Overall mission, purpose, and core programmes/services of the organization
3. Target population groups (women, indigenous peoples, youth, etc.)
4. Organizational approach (philosophy) - how does the organization deliver its projects, e.g., gender-sensitive, rights-based, etc.
5. Length of existence and relevant experience
6. Overview of organizational capacity relevant to the proposed engagement with UN Women (e.g., technical, governance and management, and financial and administrative management)

Component 2: Expected Results and Indicators (max 1.5 pages)

This section should articulate the proponent's understanding of the UN Women Terms of Reference (TOR). It should contain a clear and specific statement of what the proposal will accomplish in relation to the UN Women TOR. This should include:

1. The **problem statement** or challenges to be addressed given the context described in the TOR.

2. The specific **results** expected (e.g., outputs) through engagement of the proponent. The expected results are the measurable changes which will have occurred by the end of the planned intervention. Propose specific and measurable indicators which will form the basis for monitoring and evaluation. These indicators will be refined, and will form an important part of the agreement between the proposing organization and UNWOMEN.

Component 3: Description of the Technical Approach and Activities (max 2.5 pages)

This section should describe the technical approach and should be able to show the soundness and adequacy of the proposed approach, what will actually be done to produce the expected results in terms of activities. There should be a clear and direct linkage between the activities and the results at least at the output level. Specific strategies should also be described to support the achievement of results, such as building partnerships, etc.

Activity descriptions should be as specific as necessary, identifying **what** will be done, **who** will do it, **when** it will be done (beginning, duration, completion), and **where** it will be done. In describing the activities, an indication should be made regarding the organizations and individuals involved in or benefiting from the activity.

This narrative is to be complemented by a tabular presentation that will serve as Implementation Plan, as described in Component 4.

Component 4: Implementation Plan (max 1.5 pages)

This section is presented in tabular form and can be attached as an Annex. It should indicate the **sequence of all major activities and timeframe (duration)**. Provide as much detail as necessary. The Implementation Plan should show a logical flow of activities. Please include in the Implementation Plan all required milestone reports and monitoring reviews aligned to the Project Results Framework (enclosed to this CFP).

Monitoring and Evaluation Plan (max. 1 page)

This section should contain an explanation of the plan for implementing M&E activities in relation to results indicators at the output and outcomes levels, both during its implementation (formative) and at completion (summative). Key elements to be included are:

- How the performance of the activities will be tracked in terms of achievement of the steps and milestones set forth in the Implementation Plan and in relation to relevant project results indicators.
- How any mid-course correction and adjustment of the design and plans will be facilitated on the basis of feedback received
- How the participation of community members in the monitoring and evaluation processes will be achieved

Component 5: Risks to Successful Implementation (1 page)

Identify and list any major risk factors that could result in the activities not producing the expected results. These should include both internal factors (for example, the technology/ICT related involved fails to work as projected) and external factors (for example, COVID-19 related measures, like social distancing; or upcoming elections; or political instability, or community resistance, security etc.). Describe how such risks are to be mitigated.

Include in this section also the key **assumptions** on which the activity plan is based on. In this case, the assumptions are mostly related to external factors (for example, government environmental policy remaining stable) which are anticipated in planning, and on which the feasibility of the activities depend

Component 6: Results-Based Budget (max. 1.5 pages)

The development and management of a realistic budget is an important part of developing and implementing successful activities. Careful attention to issues of financial management and integrity will enhance the effectiveness and impact. The following important principles should be kept in mind in preparing a project budget:

- Include costs which relate to efficiently carrying out the activities and producing the results which are set forth in the proposal. Other associated costs should be funded from other sources.
- The budget should be realistic. Find out what planned activities will actually cost, and do not assume that would cost less.
- The budget should include all costs associated with managing and administering the activity or results, particularly include the cost of monitoring and evaluation.
- The budget could include “Support Costs”: those indirect costs that are incurred to operate the Partner as a whole or a segment thereof and that cannot be easily connected or traced to implementation of the Work, i.e., operating expenses, over-head costs and general costs connected to the normal functioning of an organization/business, such as cost for support staff, office space and equipment that are not Direct Costs.
- “Support Cost Rate” means the flat rate at which the Partner will be reimbursed by UN Women for its Support Costs, as set forth in the Partner Project Document and not exceeding a rate of 4% or the rate set forth in the Donor Specific Conditions, if that is lower. The flat rate is calculated on the eligible Direct Costs.
- The budget line items are general categories intended to assist in thinking through where money will be spent. If a planned expenditure does not appear to fit in any of the standard line item categories, list the item under other costs, and state what the money is to be used for.
- The figures contained in the Budget Sheet should agree with those on the proposal header and text.
